To Whom it May Concern,

Kalina Shepard has been an employee here at Haggen Inc. for the past two years and I have had the pleasure of working with her in her role as Bulk Foods Manager. I oversee Bulk Foods at the corporate level for Haggen and have always appreciated Kalina's dedication and hard work, she truly stands out among the many department leads I work with.

Kalina has excellent communication skills, she expresses herself clearly and is never afraid to ask questions. She has an excellent rapport with management, other employees and guests alike. I admire her inquisitive mind and the creative ideas she comes up with. Her work in the department shows both an attention to detail as well as a considerable artistic flare, a combination that I can say is not always found but is certainly valued.

Kalina is a true team player and works in other departments in the store as needed in addition to the bulk department. She is always willing to help where needed to get the job done. She is an optimistic individual who has a great upbeat can do attitude and shows exemplary kindness and compassion to all she meets.

She has steadily grown sales in her department to well above the company average and has excellent business acumen. She has shown great initiative by taking her own time to visit our other stores as well as the competition to brainstorm how to improve her department.

She would be an asset to any employer, and I wholeheartedly recommend her for any position she chooses to pursue. Please contact me if you have any further questions.

Best regards,

Megan Weber
